

K-LOVE has become a very important part of my life. I listen everyday, not only for the music, but to stay informed about things going on in and around San Antonio and the nation. K-LOVE is becoming more and more of a positive influence on this city. I depend on K-LOVE to be there when I need encouragement AND information. Taking K-Love off the air here would be devastating. It's become such a fixture...I'm not sure how to describe how much it means to me. It's like a family connection. K-LOVE being here in San Antonio is very much in the public interest also. I know of no other station the entire family can listen to without worry about content. Many not for profit org. use K-Love to announce upcoming events and concerts around the city. I know there are other stations. None like K-LOVE. Please, don't take our...MY, K-Love off the air. I listen @ 91.3FM .
